about us

At mōholds, we believe that setting is a form of storytelling. Handholds and volumes become the language that brings movement to life.

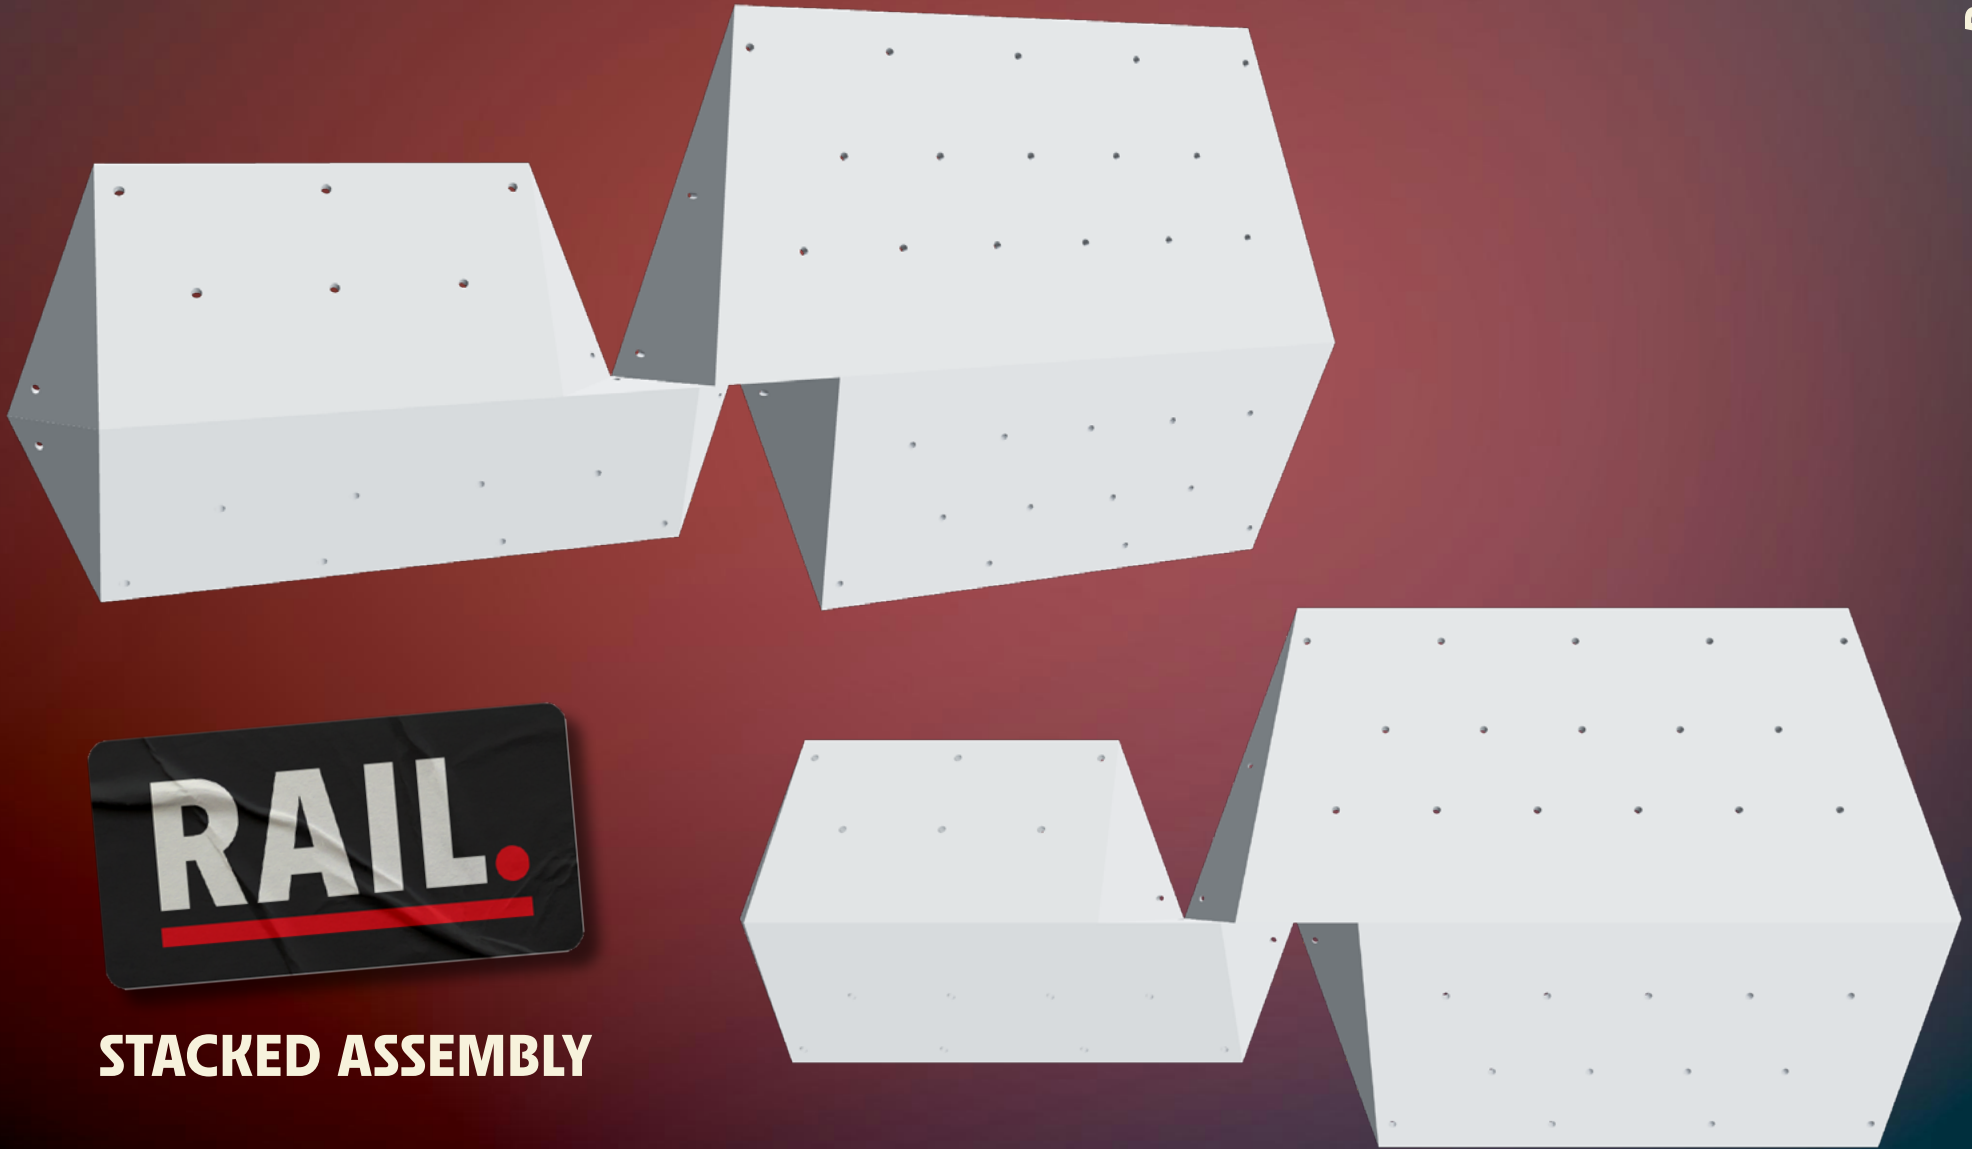

Every hold is intentionally designed to invite curiosity, challenge instinct, and reward creativity. We hope to bridge that gap to connect every setter's vision with the climber's experience. We don't just shape holds, we shape creativity and moments of discovery on the wall.

Every surface, curve, and edge is crafted with intention. Great climbs aren't just about sending routes, they're felt.

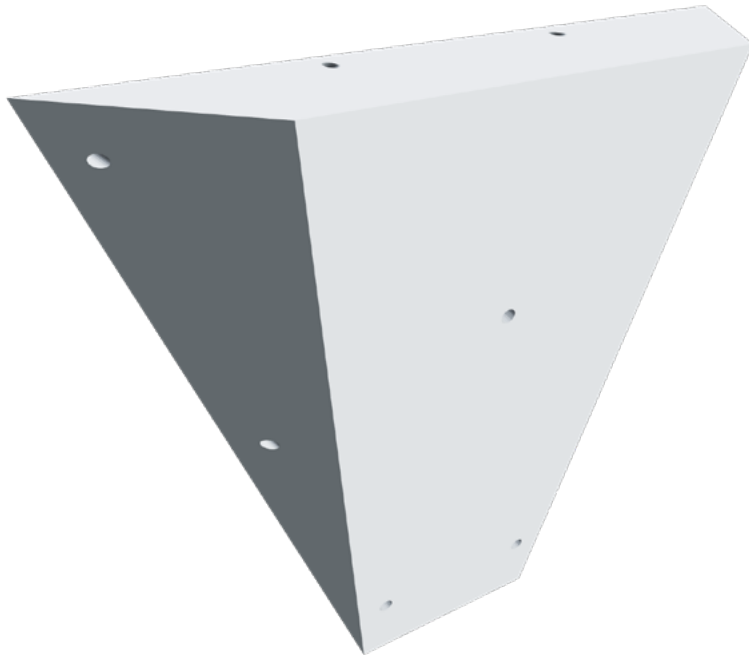

We invite you to explore touch, movement and possibility, one hold at a time.

The image features a background of bubble wrap with a color gradient from red on the left to dark blue on the right. Three semi-transparent white geometric shapes are overlaid: a triangle in the top left, a large irregular polygon in the center, and another triangle in the bottom right. In the bottom left, a black rectangular label with rounded corners contains the word "HEXA." in a bold, white, sans-serif font. A thick red horizontal line is positioned below the text, ending in a small red circle.

The image features a background of bubble wrap with a color gradient from dark grey to deep red. Overlaid on this are several large, semi-transparent geometric shapes: a large triangle pointing down from the top left, a large triangle pointing up from the bottom right, and a large triangle pointing left from the left edge. In the lower-left area, there is a black rectangular label with rounded corners. The word "TRIAMID" is written in a bold, white, sans-serif font on this label. A thick red horizontal line is positioned below the text, and a small red dot is located at the end of this line on the right side.
